

United Nations Population Fund

Partner Expression of Interest for Collaboration in the areas of promoting gender equality and addressing gender-based violence, sexual and reproductive health and rights with focus on youth and marginalized groups

The United Nations Population Fund Country Office in Serbia (UNFPA Serbia CO) invites expressions of interest for collaboration from partner organizations to assist in the implementation of the first cycle of the UNFPA Country Programme Document for Serbia (CPD 2016-2020).

UNFPA country programme is aligned with national priorities, the United Nations Development Assistance Framework (2016-2020), the UNFPA Strategic Plan, 2014-2017 and the country's aspiration for European integration. Applying a human rights-based approach in all interventions, CPD is guided by four key priorities: (a) access to affordable, integrated sexual and reproductive health services that are of high quality and meet human rights standards; (b) strengthened accountability in order to eliminate all forms of discrimination; (c) empowerment of marginalized groups; and (d) development of human rights-based population policies.

UNFPA Serbia CO now seeks to identify potential partner organizations and networks to work with us to deliver on this vital and ambitious agenda through advocacy, policy dialogue and advice, capacity building and knowledge management.

More specifically, UNFPA is looking for interested organizations that have proven track record in the following areas: (a) development and implementation of gender-sensitive and rights-related policies and strategies on youth, with a focus on marginalized groups, including the Roma, migrants and other key populations at risk of HIV; (b) establishment of participatory advocacy platforms for increased investment in marginalized adolescents and youth; (c) strengthening youth peer-education programming, including gender-transformative programming; (d) development and revision of teaching content on life-skills sexuality education; (e) generation of evidence on the sexual and reproductive health needs of youth; (g) addressing early marriage and teen pregnancies, with a focus on Roma girls and boys; and (h) introducing gender-transformative approaches to youth programmes to engage young men and boys in promoting gender equality and preventing gender-based violence.

UNFPA welcomes civil society organizations and networks, including existing Implementing Partners, to participate in this Invitation for Expression of Interest for Collaboration and requests to submit the following information in English by using the

United Nations Population Fund

template below. Submissions should be sent through email marked “Partner Expression of Interest for Collaboration” to serbia.office@unfpa.org by 18 February 2018.

- Full legal name, geographical coverage, address and contact details (e-mail; web address) of applying institution
- Mandate or mission statement of organization
- Suggested area for collaboration
- Brief annotation of the related organizational expertise including key results over the last two years on the suggested areas for collaboration
- Provide link to the annual report and/or any relevant knowledge product (campaign links, tools, policy briefs etc...)

Upon receipt of the above information, UNFPA will review submissions and create a list of potential partners during the programme cycle (2016-2020).

Selected organizations **may be invited** to submit formal proposals at a later stage.
